NEW HAVEN, Conn., Sept. 25 .- Lost tiver," Joseph Arthur's new play, which as to have been produced last night by one of the Liebler companies, was postooned because of a tank bursting yesterday afternoon. The stage of the Hyperion Theatre was instantly flooded, and several nembers of the company had narrow esapes from instant death from the flying glass and rushing water.

In the fourth act the first scene is an equeduct that is to be christened. It is een through three bridge arches, the eifect being of water flowing toward the audience. The play here demands that the heroine be thrown into the water and be rescued by the hero.

To produce this effect a tank of glass

ten feet by six feet in front and back, and one-half foot between the two glasses, which are fully an inch thick, is used.

burst in every direction from the pressure of the water. Mr. Gresham was drenched. Mr. Courtleigh had presence of mind enough to pull Miss Sanders to one side. An instant later an immense fragment of glass came crashing down where they had been standing. They had just escaped instant death. The water continued to pour from the feed pipes until the stage was flooded. A hedge on the stage pre-vented the auditorium from getting wet. Fortunately no one was injured, although

The National-Viola Allen. Viola Allen displayed her new play, "In the Palace of the King," before an imnense audience at the National last night and won a popular verdict of success, due doubtless to a great extent to her own undeniable genius, an excellent supporting empany and a lavish expenditure for scenery and costumes. Of the play, a dramatization by Lorimer Stoddard of F. Marion Crawford's story of similar name, it must be confessed that it is slow in arousing the interest of the speciator and the entire first act is merely of an ex-

planatory nature, principally of value for the introduction of the various characters. the introduction of the various characters.
"In the Falace of the King" is essentially a romantic play of love and court intrigue, although some portions of the piece are really melodramatic in the intensity of their situations. It is intimated that undesirable characters will be shown very little consideration and the dissemination of information to this effect among the thugs and crooks of the country will probably have as much to do toward keeping them away as will the tangible efforts to prevent their entrance. Mayor Jones has stated with a degree of positiveness that is convincing that the saloons of the city must remain closed until further notice, and that the offense of intoxication will result in immediate disaster to the offending individual.

The audience at the Columbia Theatre last night was accorded a view of one of the ablest interpretations of "Hamlet" that a local stage has exhibited for some time. The melancholy Dane was that of Creston Clarke, an actor of considerably more than average intelligence and perseverance. Mr. Clarke's Hamlet reminds the spectator of Edwin Booth's portrayal of the character, due no doubt to the re-markable physical resemblance of the nephew to the uncle. The supporting company includes Adelaide Prince. Ophelia is an admirable bit of work. The other members of the company worthy note are Arthur Balfour, P. S. Chase's New Grand-Vaudeville. The adage that one good turn deserves another is again proved a true maxim by the bill at the Grand this week. The first good turn is that of Katherine Osterman and company and the second is that furnished by Sam Lockhart and his "Three Graces," the elephants. Then there are several other good turns, but those already mentioned are the best. Two large audiences witnessed the performances of yesterday and pronounced them the best of the year at the Grand. The most commendable of the other mentioned acts are those of Louise Gunning, in her collection of Scotch songs, Mile. Christina and her monkeys and dogs, and Francois, a juggler and prestidigitator. However, all are good and few alterations need be made either in the order or the character of the

Miss Osterman appears in a new sketch termed "The Editor." It is a bright, clever effort, filled with keen situations and bright dialogue and gives both the young woman in the protean part and her able ompany-Mr. Tuther-excellent opportu nities. It has both humor and wit, and if staged with a little more verity, would be one of the best sketches seen since polite vaudeville was introduced in Wash ington. The antics of the elephants must be seen to be appreciated. They are cer-tainly wonderfully well trained and display marvelous sagacity. Lockhart and his "Three Graces"—which are really four in number—will be seen at Chase's all this week and next.
